PROFILE

A Computer Science Student at the University Putra Malaysia, studying Bachelor of Computer Science (Honours), after 4 years (2016 – 2020) of pursuing the same studies at the University of Yangon (the Top 1 University in Myanmar). During my ongoing studies, solidifying my theoretical knowledge by utilizing it in real-world problems and acquiring additional knowledge and experience from experienced seniors and co-workers will be my goal, while **challenging my potential to its peak**, **increasing the company's worth**, and **contributing to a cooperative and productive working environment.**
